

2007CB16IPO007–2012–3-65

Project title

Rivers with no borders

Axis

Axis 2: Improvement the quality of life

Area of intervention

2.1 Utilization of eco resources

Lead Partner

Municipality of Dupnitsa

Partner 2

Municipality of Kriva Palanka

Duration

20 months

Total budget

145 003,77 EUR

Project description

This project mainly oriented to carrying out small-scale investment measures to protect against the negative effects of flood phenomena. The project focused on: rehabilitation of protective river walls and cleaning the riverbeds of r. Dzherman, Bistritsa and Kriva reka; integration of these rivers in the urban aspect of Dupnitsa and Kriva Palanka.

Elaborated: promotional banner and project leaflets.

The project was successfully implemented in August 2015.

Materials

On December 18, 2013 Dupnitsa Municipality in partnership with Kriva Palanka Municipality, Macedonia, signed Subsidy contract with DG "Territorial Cooperation Management" within the Ministry of Regional Development for implementation of project "Rivers with no borders" with implementation period of 20 months and a total budget of EUR 499 987.78 under the Bulgaria-the former Yugoslav Republic of Macedonia IPA Cross-Border Programme.

All project activities are planned to add value and to improve the quality of life of the local citizens by utilization of eco resources. One of the milestones within the meaning of cross-border impact of the project is related to small scale investment measures for permanent protection on the negative effects of flood phenomena, such as building of protective walls and cleaning the riverbeds in both municipalities. These measures will provide the necessary circumstances for ensuring sustainable development in the cross-border region, strengthening cross-border understanding and resolving of common obstacles for development of the region.

The project partners foresee reconstruction and rehabilitation of 4 construction sites – 3 in Dupnitsa, including reconstruction and rehabilitation of the protective walls of the river Djerman, next to the sewage-treatment plant, river Bistritsa and reconstruction of protective walls in the area of Pliska str. between section 2308 and 2309. The last construction site which will be taken into consideration is the second part of the riverbed (on the specified range which covers the center of the town, as well as the inflow of river Duracka Reka in Kriva Reka) in Kriva Palanka.

This project is co-financed by the European Union through IPA Cross-Border Programme Bulgaria - the former Yugoslav Republic of Macedonia
