Area of intervention

2.1 Utilization of eco resources

Lead Partner

Alliance of the Producers of Ecological Energy – BG

Partner 2

Center for Climate Change - Skopje, Branch Office Center for Climate Change – Gevgelija

Duration

12 months

Total budget

86 410.54 EUR

Project description

This project mainly oriented to promote energy efficiency and environmental activities in small and medium enterprises (SMEs) in the cross border region, in order reducing the negative impact from their economic activities on the environment. This action is focusing on identification of the best practices and tools for better energy and waste management, applicable and suitable for the SMEs from cross border region. The project aims at increasing the energy efficiency and improving waste management practices at SMEs, to such extend which will enable reduction of negative effects from their economic activities and encouraging environmentally friendly economic activities at the companies from the respected region.

The project was successfully implemented in November 2015.
