**Project description**

This project mainly oriented to sustainable development of local democracy through the establishment and development of skills for application of team management in the context of social cohesion between Republic of Bulgaria and FYROM. The project focused on development and establishment as a permanent structure of Regional CCI in the analysis, training, education and counselling. Establishment of "work place training" in local administrations and civil associations by a combination of distance learning system "learning - action" and transfer of good practices. Training of tutors and advisers for the effective use of distance learning and "learning - action". Formation and development of the necessary competencies for the development of a regional economy based on knowledge.

The project was successfully implemented in December 2014.
